K-State Research and Extension is committed to providing equal opportunity for participation in all programs, services and activities. Program information may be available in languages other than English. Reasonable accommodations for persons with disabilities, including alternative means for communication (e.g., Braille, large print, audio tape, and American Sign Language) may be requested by contacting the event contact Karrie Van Winkle two weeks prior to the start of the event at 785-483-5137 and karrievan@ksu.edu. Requests received after this date will be honored when it is feasible to do so. Language access services, such as interpretation or translation of vital information will be provided free of charge to limited English proficient individuals upon request.
Before Starting a Recipe

- Read the recipe twice so you understand all the steps. If you have questions, ask an adult.
- The recipe in a cookbook will tell you:
  a. The name of the recipe.
  b. How much the recipe will make—how many servings and how big each serving should be (Serving Size).
  c. How long it will take you to make the recipe (Time).
  d. What foods you need to make the recipe (What You Need). Some ingredients are optional that means you can choose if you want to add them.
  e. The steps to follow to make the recipe.
- Gather all kitchen tools (like measuring spoons and cups) needed for the recipe.
- Check that you have all the ingredients before you start. Put all the ingredients in one place, so they are easy to grab while cooking.
- Some ingredients in the list may tell you things you need to do before you even get to the directions. You may need to peel, grate, or cut foods or thaw frozen foods.
  - Peeling: Hold the fruit or vegetable tightly in one hand. Use the peeler in the other hand to peel off the skin. Always move the peeler away from you. Make sure to avoid your fingers with the sharp blade.
  - Grating: Place box grater on a plate or cutting board. Hold firmly with one hand, with the other hand, hold the item you are grating. Press it against the large holes on the grater and push from top to bottom. Keep your fingers away from the sharp holes.
  - Cutting: Use a cutting board every time you cut. Clean as you go. Put measuring spoons, cups, and other kitchen tools in the sink when you are done using them. Wash your hands, knives (carefully), and cutting boards between tasks.
  - Measuring: Choose the correct measuring cup or spoon. Cooking is a good way to learn more about fractions. You will need measuring cups and spoons to measure fractions. Fill the measuring cup or spoon right to the top but not over. Do not pack down the ingredient.

Playing it Safe While Cooking

- Always wash your hands with soap and hot water before you begin. Start with a clean work space.
- Clean countertops and kitchen tools are an important part of keeping food safe.
- Wash fruits and vegetables with water even if you will remove the peel.
- Rinse the tops of cans with water before you open them.
- When you are using a knife:
  - Be sure to have an adult working with you.
  - Always put the food you are cutting on a cutting board. It is best to have one cutting board for fruits and vegetables and another for ingredients like raw meat, poultry, and fish.
  - Choose a knife that feels comfortable in your hand. Hold the knife firmly by the handle. With the other hand, hold the item you want to cut. Keep your fingertips away from the blade. Make a “claw” with your hand to keep your fingertips curled under.
  - Cut straight down, not toward yourself or another person. To slice, cut in thin or thick pieces.
  - To chop, cut into squares. Try to make all the pieces close to the same size.
- Clean means safe.
- After touching meat, eggs, chicken, or fish, carefully wash the counter, your cooking tools, and your hands with soap and hot water.
- Always use clean, dry oven mitts whenever you use the oven.
- You may want to have an adult help you.
- When cooking on the stove: Be safe when cooking on the stove.
  - Make sure pot handles are turned away from the front of the stove so they are not accidentally bumped or knocked off. When uncovering a pot on the stove or a container from the microwave, open the lid away from you to let the steam out.
  - When using a blender, keep the lid on.
  - Turn the blender off before putting any utensils inside the blender container.
  - Keep foods at the right temperature.
  - Hot foods need to stay hot, and cold foods need to stay cold. Cold foods such as milk, cheese, and eggs need to be refrigerated.
  - Separate uncooked and cooked foods.
  - Raw (uncooked) meat, poultry, and eggs can have harmful bacteria that is killed during cooking. Keep these foods away from uncooked foods like fruits and vegetables. Also, wash cutting boards, countertops, and knives that touch raw meats, fish, and eggs.

Green Bean Dumpling Soup

Ingredients:

Broth:
6 cups Chicken Broth
4 cups milk
4 cups whipping cream
4 - 14.5oz cans of French style green beans
1 tsp Garlic Salt
1 1/2tsp season salt
1 tsp pepper
1 tsp salt
1/2 tsp celery salt
1 small chopped onion (optional)

Directions:
In a large soup kettle add broth, milk, cream, green beans, seasoning, and onions. Cook on high heat, bring to a rolling boil. While soup is heating up, prepare the dumplings. In a mixing bowl add the dry ingredients and mix well. Add eggs and water, mix until well blended. Once soup is boiling, dip the end of a fork in the soup for approx 10 secs to warm it. Using the warm fork, scoop up approx 1/2 tsp of the dumplings mixture. Dip the fork into the soup. The dumpling will slide right off the warm fork. Repeat dropping the dumpling mixture until its all in the soup. Boil soup for another 10mins to assure all dumplings are cooked. Turn heat off and enjoy!

**Carmelitas**

**Ingredients:**
- 3/4 cup Butter (melted)
- 3/4 cup Brown sugar, light packed
- 1 Tbsp Vanilla extract
- 1 cup Rolled old fashioned oats, whole
- 1 cup All-purpose flour
- 1 tsp Baking soda
- pinch of Salt
- 1 cup Semi-sweet chocolate chips
- 35 Caramel squares
- 1/2 cup Heavy cream

**Directions:**
Preheat oven to 350F. Line an 8×8-inch pan with aluminum foil and spray with cooking spray. In a large mixing bowl, combine the melted butter, brown sugar, vanilla, and whisk until smooth. Add the flour, oats, baking soda, pinch salt, and stir until combined. Add half of the mixture to the prepared pan, and smooth it with spatula or the back of a spoon, to create a smooth layer; set remainder aside. Bake for 10 minutes. While it bakes, make the caramel sauce. In a large microwave-safe mixing bowl, combine the caramels, cream, salt, and heat on high power in 60-second bursts to melt caramels, stirring after each burst. Heat until mixture can be stirred smooth. After 10 minutes, remove pan from the oven and evenly sprinkle with the chocolate. Slowly and evenly pour caramel sauce over the chocolate. Evenly crumble reserved oatmeal-brown sugar mixture over the top. Return pan to oven and bake for about 15 to 18 minutes, or until edges are lightly browned and center is bubbling slightly. Allow bars to cool completely in the pan before slicing and serving, giving the molten caramel time to firm up. This can take up to 4 hours, or overnight, at room temperature.

Main Dish

Pigs in a Blanket Rolls (part 2)

Directions:
Shaping & Proving the Rolls (40 minutes + a little proving time):
1.) Lightly dust a 11 by 17-inch rimmed cookie sheet with flour.
2.) Slice the sausages into 11 pieces, each about 1 ½ inches long. Beat one egg in a small bowl.
3.) Punch down the dough all over to knock out excess air, then divide it into 12 equal pieces using a kitchen scale for accuracy. The twelfth piece is for the ears, noses, and tails of the pigs.
4.) To shape the rolls, roll out a blob of dough into a circle. Brush a piece of sausage with beaten egg to help it stick to the dough, and place it in the middle of the dough circle. Add shredded cheese now if you wish to. Bring up the edges of the dough around the sausage and pinch the ends together to seal. Place the roll seam side down on the prepared cookie sheet, spacing them a few inches apart.
5.) Brush the rolls with beaten egg. Roll out the remaining dough and use a small, sharp cookie cutter to cut circular noses for the pigs. Brush them with egg and stick them on the pigs. Use a toothpick to make the nostrils.
6.) Snip little pieces of dough to make ears and a tail for each pig. Brush them with egg wash and stick them on the pigs, using small pieces of wooden toothpick to hold them in place if needed. Put on the peppercorn eyes.
7.) Let the pigs prove until the dough springs back quickly when gently pressed with a fingertip and the rolls have noticeably increased in size. The rolls need about 30-45 minutes total of proving time. Go by the look and feel of the rolls, not by time.
8.) Another option if you choose not to shape rolls into pigs is to use a silicone pig mold to bake them. About 10 minutes before the pigs are done proving, preheat the oven to 400 F.

Baking the Pigs (20 minutes):
1.) Bake the pigs at 400 F for 15 minutes, then lower the temperature to 375 and bake for 5-10 minutes more, until the pigs are a rich golden brown and have an internal temperature of about 200 F. After 10 minutes, check the rolls and cover any dark spots, like the ears, with aluminum foil.
2.) Let the pigs cool on a wire rack, then serve warm. Store leftover rolls in the fridge and reheat before serving.
3.) If you choose to use the silicone baking mold, bake for 10 minutes and continue checking it. Flip mold upside down to release the pigs and let cool. Optional: Our family also enjoys adding a bit of yellow cornmeal to our dough. It gives it extra flavor and a bit of a fun texture. ***Enjoy***

Layken Eck - Sunflower
Intermediate (10-13)

### Pigs in a Blanket Rolls

**Ingredients:**
- Dough:
  - 4 ½ cups bread flour
  - 2 teaspoons fine salt
  - 3 teaspoons fast-action yeast
  - 1 tablespoon granulated sugar
  - 4 tablespoons unsalted butter, softened
  - 1 large egg
  - 1 ¼ cups whole milk

- Filling/Decoration:
  - 2 pre-cooked smoked sausages, or more
  - 1 large egg, beaten
  - shredded cheese of your choice
  - 22 black peppercorns
  - Several wooden toothpicks

**Directions:**

**Making & Proving the Dough (25 minutes + 1 hour proving):**

1.) Warm the milk to 115°F in a small saucepan or in the microwave. If you’re using the microwave, poke a small wooden spoon or wooden skewer into the milk to break the surface tension and prevent it from exploding.

2.) Pour the flour into a large mixing bowl and add the salt and yeast on opposite sides of the bowl, stirring in each one with your hand. Mix in the sugar.

3.) Dump in the softened butter, one egg, and half of the milk. Stir the mixture with your hand to start bringing the dough together. Gradually trickle in the milk as you mix until a soft, sticky dough has formed and all the flour is picked up from the bowl. You may not need all the milk.

4.) Turn out the dough onto a floured surface and knead for about 10 minutes, until the dough passes the windowpane test and has a glossy sheen on its surface. Test the dough by grasping a lump of dough between the thumb and forefinger of each hand and stretching it. If it stretches until it’s translucent, the dough is well kneaded; if not, knead for a minute longer and check again.

5.) Shape the dough into a ball, place in a buttered bowl, and cover tightly with plastic wrap. Let the dough prove until at least doubled in size, about 1 hour.

**Filling/Decoration:**

- 2 pre-cooked smoked sausages, or more
- 1 large egg, beaten
- shredded cheese of your choice
- 22 black peppercorns
- Several wooden toothpicks

**Baking & Cooling:** Place the springform pan (still wrapped in foil) in the middle of a large roasting pan. Pour the chocolate cheesecake batter on top of the crust and smooth the top. Carefully spoon the coffee cheesecake batter on top of the chocolate layer so that it’s evenly covered. Pour boiling water into the roasting pan so that there’s about 1 inch of water in the roasting pan. Place the large roasting pan (with the cheesecake inside) in the oven. Bake for 50-65 minutes, or until the top looks almost set and the cheesecake wobbles slightly (think like pudding or jello) if you gently nudge the pan. Remove the roasting pan from the oven. Cool the cheesecake in the pan until it’s room temperature. Remove the springform pan from the roasting pan. Cover the cheesecake with foil and place in the fridge to chill for at least 6 hours, or overnight.

**Ganache, Whipped Cream & Serving:** After the cheesecake has chilled for at least 6 hours, remove from the fridge. Trace around the outside with a thin, sharp knife. Then unclamp the outer ring of the springform pan. If there’s any condensation on top of the cheesecake, use a paper towel to blot it off. For the ganache, chop the chocolate into very fine pieces and place in a heatproof bowl. Heat ½ cup cream until almost boiling. Pour the cream over the chocolate. Let sit for 2-3 minutes, then whisk until smooth. Pour the ganache over the top of the cheesecake. Use a flat knife to spread it to the edges, if needed. Return to the fridge for the ganache to firm up. For the coffee whipped cream, combine the cream and instant coffee powder until stiff peaks form. The instant coffee powder will dissolve as you whip the cream. Slice the cheesecake with a sharp, thin knife (not a table knife). Be sure to cut all the way through the crust. For clean cuts, wipe off the knife after each slice.

**Directions:**

**Oreo Crust:** Crush the Oreos (wafers and filling) in a food processor until fine crumbs. Mix the crushed cookies with the melted butter. Press the mixture into the bottom of the prepared pan, creating a slight lip around the edge. Bake in the preheated oven for 8-10 minutes. Remove from the oven, leaving the oven turned on.

**Cheesecake:** Finely chop the dark chocolate and place in a heatproof bowl. Heat the cream until almost boiling. Pour ½ cup of the cream over the chopped chocolate. Let sit for 2-3 minutes, then whisk until smooth. If the chocolate isn’t quite melted, microwave on medium power for 30-second intervals until smooth. Set aside. Whisk the instant coffee powder into the remaining ½ cup of hot whipping cream. Set aside. In a very large bowl beat the cream cheese until smooth (about 2 minutes). Beat in the sugar and cornstarch until combined. Turn off the mixer and scrape down the sides of the bowl to ensure there are no lumps. Beat in the eggs 1 at a time, turning off the mixer and scraping down the sides in between each addition. Stop mixing as soon as you no longer see pieces of egg yolk or egg white. Divide the batter in half. Whisk the melted chocolate mixture into 1 half of the batter. Whisk the instant coffee powder dissolved in cream into the 2nd bowl of the batter.

**Baking & Cooling:** Place the springform pan (still wrapped in foil) in the middle of a large roasting pan. Pour the chocolate cheesecake batter on top of the crust and smooth the top. Carefully spoon the coffee cheesecake batter on top of the chocolate layer so that it’s evenly covered. Pour boiling water into the roasting pan so that there’s about 1 inch of water in the roasting pan. Place the large roasting pan (with the cheesecake inside) in the oven. Bake for 50-65 minutes, or until the top looks almost set and the cheesecake wobbles slightly (think like pudding or jello) if you gently nudge the pan. Remove the roasting pan from the oven. Cool the cheesecake in the pan until it’s room temperature. Remove the springform pan from the roasting pan. Cover the cheesecake with foil and place in the fridge to chill for at least 6 hours, or overnight.

**Ganache, Whipped Cream & Serving:** After the cheesecake has chilled for at least 6 hours, remove from the fridge. Trace around the outside with a thin, sharp knife. Then unclamp the outer ring of the springform pan. If there’s any condensation on top of the cheesecake, use a paper towel to blot it off. For the ganache, chop the chocolate into very fine pieces and place in a heatproof bowl. Heat ½ cup cream until almost boiling. Pour the cream over the chocolate. Let sit for 2-3 minutes, then whisk until smooth. Pour the ganache over the top of the cheesecake. Use a flat knife to spread it to the edges, if needed. Return to the fridge for the ganache to firm up. For the coffee whipped cream, combine the cream and instant coffee powder until stiff peaks form. The instant coffee powder will dissolve as you whip the cream. Slice the cheesecake with a sharp, thin knife (not a table knife). Be sure to cut all the way through the crust. For clean cuts, wipe off the knife after each slice.

**BROWNIES (Part 1):** Line a 9” x 13” baking pan with foil, and spray the foil with nonstick cooking spray. Preheat the oven to 350 F. Combine the butter and chopped semi-sweet chocolate in a large microwave-safe bowl. Melt them together in 30-second increments, stirring after every 30 seconds to prevent overheating. Once melted and smooth, let it cool to room temperature. Whisk in the eggs one at a time, then whisk in the vanilla, and granulated sugar. Continue to whisk until the texture smooths and thickens and the batter becomes glossy, like pudding. Finally, add the flour, baking powder, and salt, and stir in gently with a spatula until no streaks of flour remain.

Put on favorite BBQ sauce both sides and put back into the smoker for another two hours. To make sure that ribs are fully cook check them with a thermometer. It should read 180 degrees. Once the mac & Cheese is done, take the crown out and place the mac& cheese into the center of the ribs and top with bacon. Directions for Noodles for Mac & Cheese In a pot, fill ¾ way with water. Put on stove medium-high. Wait for water to come to a rolling boil. Put in the noodles. Return to heat and stir occasionally. Cook pasta until noodles are soft. Galaxy Mousse Cakes (Part 2)

Directions: BROWNIES (Part 2): Scrape the batter into the prepared pan and smooth it into an even layer. Bake the brownies for 15 minutes, then remove the pan from the oven and gently rap it on the counter to release any air bubbles. Return it to the oven and bake for an additional 5 minutes (20 minutes of baking total), or until a toothpick inserted into the center comes out with just a few moist crumbs attached. Let the brownies cool completely, then use a 2 3/4” circular cutter to cut out 10 brownie circles. If the tops of the brownies are uneven, gently press down on them to flatten them out. Place the brownie circles on a covered baking sheet and freeze them until you're ready to use them.

CHOCOLATE MOUSSE: Combine the chopped chocolate, flavored creamer, and salt in a large microwave-safe bowl. Microwave in 30-second increments, whisking every 30 seconds, until the chocolate has melted and the mixture is smooth. Let it cool until it's slightly warm or room temperature, stirring occasionally. While you wait for the chocolate mixture to cool, prepare the gelatin. Whisk together the gelatin and the cold water in a small bowl, and set it aside to let the gelatin absorb the water. Whip the remaining 1 cup heavy cream to firm peaks, and set it aside for a moment. When the chocolate is at room temperature, it's showtime! Microwave the bowl of gelatin for 10-12 seconds, until it is melted. Whisk the melted gelatin and chocolate mixture together. Fold half of the whipped cream into the chocolate, and once it's incorporated, gently fold in the remaining whipped cream. Make sure your silicone molds are clean and dry. Use a large spoon to fill the half-sphere cavities, leaving about a half-inch of space at the top. Move the spoon around as you fill them to make sure the mousse is evenly distributed and there are no air pockets that will show up later. Take a frozen brownie round and press it on top of the mousse, pressing firmly so the mousse comes up around the sides of the brownie. Use a spatula to smooth around the edges so they're perfectly clean. Place the silicone molds on a baking sheet and freeze for at least 2 hours, until VERY firm. Once frozen, unmold and place each dessert on a small cardboard circle—this will make them easier to transfer later. Keep them in the freezer until you're ready to glaze them.

MIRROR GLAZE: Whisk together the gelatin and 1/2 cup cold water in a bowl, and set it aside to let the gelatin absorb the water. Combine the remaining 5 oz water, sugar, and condensed milk in a medium saucepan, and place the pan over medium heat. Stir while the sugar dissolves, and bring the mixture to a simmer. Once it is simmering steadily, remove it from the heat and add the gelatin (no need to melt the gelatin first—just scrape the big blob out of the bowl!) Whisk the gelatin as the heat from the pan dissolves it, and whisk until it is almost entirely incorporated. A few small pieces of gelatin are fine. Add the white chocolate to the pan, and let it sit for a few minutes to soften the chocolate. Whisk lightly to combine. Divide your glaze into as many bowls as you want. I find it's easiest to have a few “base colors” that are larger portions, and a few “accent colors” that are smaller portions. All you need to do is whisk a few drops of food coloring into each bowl of glaze. Let the bowls set until they cool down to about 95 Fahrenheit. Take the mousse cakes from the freezer. Cover a baking sheet with parchment or waxed paper and set small jars or cups on the sheet for the mousse cakes to balance on. In a new bowl, pour about 1/3 cup of one of your base colors of glaze, then drizzle the top of it with a few other colors. Take this bowl of glaze and pour it over one of the cakes, swirling it around the top to make sure that all the sides are covered. Let the glaze drip down the cake onto the baking sheet. Let the cakes sit for about 15 minutes, until the glaze is semi-set, then transfer them to small plates. Chill for an additional 10-15 minutes until the glaze is full set.

Strawberry Shortcake in Mini Mason Jars

**Ingredients: Cake Base:**
1-1/4 cups egg whites (about 9 large)
1-1/2 cups sugar, divided
1 cup cake flour
1-1/4 teaspoons cream of tartar
1 teaspoon vanilla extract
1/4 teaspoon almond extract
1/4 teaspoon salt

**Strawberry Filling:**
2 containers fresh strawberries (2 lbs)
1/4 cup sugar (or less)
2 teaspoons lemon zest

**Directions:**

**Cake Base:** Place egg whites in a large bowl; let stand at room temperature 30 minutes. Sift 1/2 cup sugar and flour together twice; set aside. Place oven rack in the lowest position. Preheat oven to 350°. Add cream of tartar, extracts and salt to egg whites; beat on medium speed until soft peaks form. Gradually add remaining sugar, about 2 tablespoons at a time, beating on high until stiff peaks form. Gradually fold in flour mixture, about 1/2 cup at a time. Gently spoon into an ungreased 10-in. tube pan. Cut through batter with a knife to remove air pockets. Bake until lightly browned and entire top appears dry, 35-40 minutes. Immediately invert pan; cool completely, about 1 hour. Run a knife around side and center tube of pan. Remove cake to a serving plate.

**Strawberry Filling:** Chop the strawberries into roughly ½” pieces. Reserve a handful to use as garnish. Add the sugar and the lemon zest. Stir to fully incorporate and set aside until needed.

**Cream Cheese Whipped Filling & Topping:**
8 oz cream cheese
2 cups heavy cream
¾ cups powdered sugar
Vanilla or almond extract added to preferred taste

**Garnish:**
fresh mint leaves
strawberries (sliced in half)
large sugar sprinkles

**Assembly:**
Place pieces of cake into the bottom of a mason jar, add strawberries (with a bit of juice), then the whipped filling. Using a piping bag makes this easier. If you want to add layers, repeat with another layer of cake, strawberries, and top with a dollop of whipped topping. Add a strawberry and a mint leaf for garnish. Enjoy! **NOTES:** Depending how you plan to serve the shortcake base, a shallow baking pan might work best for a thinner cake base. Or you can use round cake pans or a 9x13 cake pan and cut the cooled cake into pieces to fill the mason jars.
